### Automatic Data Conversion

Depending on your current version of The Mortgage Office™, a data conversion may be required. Depending on the speed of your computers and the size of your data files, this process can take several minutes and cannot be interrupted. Also, during the conversion process you will need 3 to 4 times the amount of disc space currently used by your TMO™ database. Please allow plenty of time to complete this process and also to check your available disc space prior to running the conversion.

### System Requirements

**Microsoft® Office 2003 or Newer.** The Mortgage® Office requires Microsoft® Office 2003 or newer. All notices and documents will not print without it.

### Windows Compatibility

The Mortgage Office™ is fully compatible with:

1. Microsoft® Windows 7 (Professional, Ultimate).
2. Microsoft® Windows Vista (Business, Enterprise, Ultimate).
3. Microsoft® Windows XP Professional.

By signing below, I, on behalf of the above stated Licensee, agree to all the terms of the latest Software Licensing Agreement delivered to said Licensee.
